

Additional Conditions of Use:

Signing in – you must report to reception on each visit as normal & sign the day sign in sheet for Unit E. Don't let anyone in via the exit button – they need to be buzzed in from reception.

CCTV – CCTV is in operation for the purpose of monitoring usage, entry & any incidents. There is a live feed to reception & the office, and footage is stored for 7 days for subsequent review.

Unit E is not permanently staffed – in the event of injury or any issues with equipment or other users please notify staff at Main Reception. There is a panic button located inside the entrance which links to main reception (for emergency use only).

Competition style boulder problems – most of the climbing in Unit E is more challenging than that found in the main centre; be aware of your abilities and that uncontrolled falls may lead to a greater risk of injury, and like the Rab Competition Wall descent by climbing down is likely to be more challenging due to the absence of easier circuits – bear this in mind before climbing all the way to the top.

Gym Equipment – there is a wider array of gym equipment available in the fitness suite than in the main centre including Olympic bars and weight plates; please only use equipment that you are familiar with and confident using. If you are trying hard then get someone you trust to spot you. Be considerate to other users; give each other space to work and return the equipment when you're finished.

Over 18s Only – as this area isn't permanently staffed it is strictly for over 18s with the exception of internal groups with our vetted coaches, or at select advertised times when the unit is staffed (e.g. special events).
